HVAC & Lighting

EcoView™ is a wireless and scalable EMS that schedules, monitors and manages restaurant energy use for HVAC and lighting in real time.

- Up to 18% reduction in HVAC and lighting consumption
- HVAC energy consumption savings are typically 5%
- Average payback: less than 24 months
- Mobile Access
- Quick Installation: No wiring required
- Tested in hundreds of locations

Enterprise Software

Developed by Verisae, the vx Conserve system incorporates data from Franke energy products into a single dashboard.

- Average payback: less than 24 months
- Accessible from any Web-enabled device

Managed Services

Franke is 100% committed to providing exceptional value-added service and support.

- More than 15% of calls are resolved over the phone, avoiding a service call
- One phone number (1-888-437-2653) handles all service requests 24/7/365
- Authorized Service Provider Network

Adaptive Refrigeration

Maximizes energy efficiency by eliminating unnecessary defrosts and significantly reducing compressor run time.

- Total system energy savings are typically 20%
- 86% reduction in defrost cycles
- Average payback: less than 24 months

Variable Ventilation

Automatically adjusts fan speeds to match real-time exhaust needs.

- \$2,000 - \$4,000 average savings every year on utilities
- HVAC energy consumption savings are typically 10%
- Works with existing exhausting fans

SPECIAL FINANCING

Special financing is available on several Franke energy-saving products. Talk to a Franke representative about how the savings these products generate could make them cash flow positive from Day One!
